- DESIGN SYSTEMS
- FIGMA
- UX/UI
- STORYBOOK
- DESIGN TO CODE
- AEM

Senior web designer with 12+ years at Tire Rack shaping ecommerce, partner platforms, and internal tools. Combines visual craft, reusable design systems, and front-end fluency to carry work from concept through accessible production. Uses AI-assisted workflows for exploration, prototyping, and QA, with responsibility for the decisions and quality behind what ships.

DESIGN + SYSTEMS

Design systems
Tokens, components, governance, accessibility.

Product & visual design
Typography, responsive UX/UI, interaction, prototyping.

Technical fluency
HTML, CSS/Sass, React, Storybook, AEM.

AI-assisted workflows
Prototyping, documentation, design review, and QA.

EDUCATION

Kendall College of Art and Design
BFA, Graphic Design
Minor in Digital Media (Web)

SELECTED OUTCOMES

- 200+ tokens
- 50+ Storybook components
- 60% faster page loads
- AEM · WebPageTest
- 1–2 week launch cycles
- Previously about one month

EXPERIENCE

Tire Rack · Senior Web Designer 2021–Present

- Built WheelRack’s design system and dealer journey, from vehicle selection through checkout. Partner adoption grew from six to ten during the build.
- Established governed AEM templates after designing 50+ landing pages, with reusable patterns used by two junior designers.
- Redesigned 30+ tire-category experiences. Top pages recorded up to a 50% conversion lift in the first month.
- Built three connected tools for Design, UX, and Photography; mentor designers through critique, accessibility reviews, and design-to-code QA.

Tire Rack · Web Designer 2014–2021

- Designed and implemented responsive ecommerce, editorial, and marketing experiences using HTML, CSS/Sass, and enterprise CMS platforms.
- Built a seasonal content system using 20+ AEM Experience Fragments across six high-traffic pages.

Round 2 Corp. · Designer 2013–2014

Created product and packaging experiences for entertainment and toy brands, with a focus on typography, visual systems, and production craft.

SELECTED WORK

- WheelRack**

Design system and dealer journey across partner brands. Figma, tokens, Storybook, and React.
- PlayDraft**

Ongoing personal project. Concept to TestFlight in 12 weeks: brand, UX/UI, React Native, and QA.
